# WHEN YOU SERVE MEAT, YOU'RE SERVING UP REAL NUTRITION!

## PROTEIN RICH

Lean cuts of beef, chicken or pork deliver high doses of protein, needed to maintain and repair body tissue, while improving the function of your weight-regulating hormones.

## FOR BETTER BONE HEALTH

Higher protein intake helps you maintain bone mass as you age, which results in a lowered risk of osteoporosis and bone fractures.

## A GREAT SOURCE OF VITAMINS

Meat is a great source of the B vitamins... especially B12 which helps develop red blood cells, and keep the nerves and brain functioning normally. Plant-based diets can't provide enough!

# AL'S CENTER PLATE FRESH MEATS
